P R E F A C E .

It is a well known fact that there are several Millions of property, both real and personal, in England alone, lying dormant while the legitimate owners in many instances are in the most needy circumstances; not because they cannot show their claim to be just, but simply this, that the expenses attending upon searching for Certificates of Baptism, Marriage, or Burial (as the case may be), to enable them to produce a true Pedigree are so heavy that none but those possessed of ample means dare hope to obtain these necessary proofs of identity; as, for instance, people leaving their country, and all traces of them being lost, how would it be possible for any poor person, no matter his or her title to property, to follow up a succession of searches in this case?

In order to obviate this difficulty, the compiler has for many years been actively engaged in collecting from the different Churches, Chapels, and Synagogues, not only throughout the United Kingdom, but from every known part of the habitable globe, this valuable Register. The collection contains several hundreds of thousands of Extracts, dating from the year 1500 to the present time, and an Index is now being compiled, to be issued in parts, so as to come within the reach of all. Fresh additions are being constantly made.

It must not be supposed that because there are many names

alike, that they are all one family, or from one county, or kingdom, as in nearly every case they bear no relation to each other whatever.

Persons wanting searches made from this extensive Register, must send name and date as near as possible, with 10/6 search fee for each Baptism, Marriage, or Burial, and if found, certified copies of either supplied from One Guinea each.

Pedigrees traced and made out at a reasonable charge.

Wills and other documents relating to property searched for, and copies obtained with accuracy and despatch.
